Washington State and Oregon  
Chapters, American College of Surgeons**

**June 17—20, 2011  
Campbell's Resort  
(Chelan, WA)**

# CONTINUING MEDICAL EDUCATION

## ACCREDITATION

The American College of Surgeons is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

## CME CREDIT

The American College of Surgeons designates this educational activity for a maximum of **16.5 AMA PRA Category 1 credits<sup>TM</sup>**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

## 2010 LEARNING OBJECTIVES

### Overall Need Statement

Physicians and surgical care associates are required to maintain up-to-date knowledge of the latest developments in the practice of surgery to improve patient outcomes. The Oregon and Washington Chapters of the American College of Surgeons Annual Meeting features education that provides needs-based learning covering an overview of recent developments in trauma, surgical oncology, and cardiothoracic surgery including up to date basic science research in these areas. Practice management issues including quality improvement initiatives and health care reform will also be covered.

### Overall Goal Statement

The overall goal of this program is to enhance participants' competence by providing the most up-to-date developments in the diagnosis, treatment and management of surgical disease and by facilitating transfer of knowledge into practice to improve patient outcomes.

### Learning Objectives

Upon completion of this program, attendees should be able to:

1. Describe recent advances in nationwide cancer care databases.
2. Review quality improvement initiatives available for implementation at the participant's hospital.
3. Describe recent changes in blood transfusion guidelines for trauma and surgical patients.
4. Describe the ACS position on health care reform.
5. Review OR/WA statewide trauma prevention programs.
6. Review OR/WA statewide cancer care improvement initiatives.

**HENRY N. HARKINS:  
BIOGRAPHICAL NOTE**

Born in Montana in 1905, Henry Harkins spent most of his youth in Chicago, where he earned his medical degree from Rush Medical College in 1930. He subsequently received his surgical training at the University of Chicago, serving as Chief Resident in 1936. Following residency, Dr. Harkins began an active career in academic surgery, including fellowships in several European centers. Upon his return to the United States, he served on the staff of Henry Ford Hospital, and later at Johns Hopkins.

In 1947, Dr. Harkins became Chairman of the Department of Surgery at the University of Washington. Under his leadership, the Department gained a reputation for excellence that endures to this day.

Among Dr. Harkins' many contributions to surgery were work on traumatic shock, burns, hernia, varicose veins and a keen interest in gastric pathophysiology and surgery. Until his death in 1967, he remained active on numerous editorial boards and advisory panels. The Harkins Resident Paper Competition is a fitting tribute to the memory of this extraordinary surgical leader.
