*September 12-14, 2025*

# Purpose

To provide for surgeons in all the various surgical specialties a common meeting ground where each may learn from the others.

# Objectives

Demonstrate competence and understanding along with use of medical literature to effectively and cognitively evaluate surgical conditions and symptoms, and suggest appropriate management plans based on the information obtained.

By engaging in an oral discussion in an open forum and interactive session, participants have the ability to both demonstrate their knowledge as well as develop the proper communication skills to convey this to the audience at the conference and back at their institutions.

While they are given specific points of emphasis pertaining to the expected level of knowledge, they are also expected to personally identify gaps in their own knowledge and take the necessary steps to remediate them. Life-long learning is then instilled through a combination of active and passive learning with reinforcement through similar patient encounters.

# Program Chair

Eduardo Singares-Smith, MD

# Contact

Susan Lentz, WA ACS Coordinator

# Exhibit Opportunity

The Washington State Chapter of the American College of Surgeons is greatly appreciative of the support provided by commercial companies to help make this meeting a success.

The Washington State and Oregon Chapters will host our 18th combined annual meeting at Campbell's Resort in Chelan, WA. The resort is about 3.5 hours east of Seattle

We have expanded the program to include abstracts collected from the membership and didactic lectures from invited speakers in a wide range of surgical topics.

All exhibitors will be invited to attend the meeting and associated activities at no additional expense. Companies and their representatives will be recognized during the program as well as acknowledged on the printed agenda and symposium literature. In addition, we will provide a designated area adjacent to the scientific sessions for displaying information about products and services.

The online Application form is provided with this prospectus. Exhibit space will be allocated on a first-come first serve basis. The exhibit hall is located next to the general session room and will offer increased visibility with our members. Our breakfast and breaks are scheduled inside the exhibit hall so you will have plenty of opportunity to connect with our members.

## Benefits of Support

- Company visibility and access to surgeons from Oregon and Washington State•
- Support collaboration and networking with surgeons in academic, private, and community practices
- Build relationships with key leaders in surgical communities to enhance patient care
- Showcase products and latest technology
- Listen to presentations in the general session room
